

Steps to Remove the Background From Your Prop

- File--Open your prop
- In the Layers palette
 - Unlock the background layer

- Add new layer

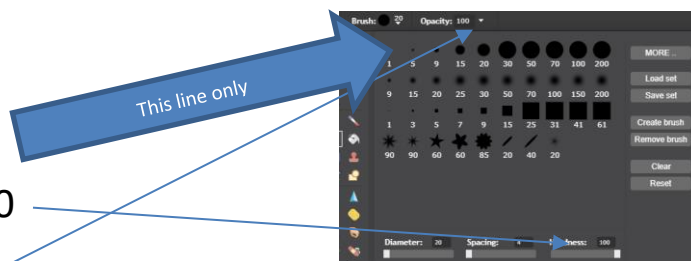

- Stay clicked on the new layer
- Select the Paint Bucket and choose green
- Click in the middle of your picture
- Flip the order of the layers (Layer 0 on top)
- Stay clicked on Layer 0
- Select the:
 - Magic Wand tool if there is a solid color background. (Remember to Edit – Deselect All when you are finished.)

- Eraser

- Brush: Circle
- Hardness 100
- Opacity 100

- Begin Erasing
- SAVE AS:
 - Name: Edited Prop Name (Ex. Edited Cat)
 - Format: .PXD
 - Put in Photo Editing folder in your user drive
