Memo To: Parents and Guardians  
From: Jeffrey Takiue  
Principal  
Subject: Car Accident on Campus

There was a car accident on our campus around 11:00 AM on the east (mauka) side of campus. **No students or staff were involved or injured.** The driver and passenger of the vehicle had minor injuries. A gate and fence on our campus were damaged. There was also a dog that was in the vehicle that ran away, so we temporarily had student use alternate routes to and from their classrooms to keep them safe.

The accident and follow-up with police and ambulance were noticeable by many students, especially those in fourth and fifth grade classrooms near where the accident occurred. There were several students who were emotionally impacted by the accident. We provided counseling to students who requested support.

We strive to keep all of students safe and emotionally supported. Please let us know if you have additional questions or if your child needs additional support.

Thank you.
