March 23, 2020

Dear LUSD Families,

These past few days have challenged our community with events that we could not have foreseen. In a short period of time we have experienced school closures, shelter-in-place orders, cancelations of long anticipated social events, and the switch to distance learning.

Last week we were tasked with learning how to work, teach and become successful online students from home. We believe our community has become closer than ever due in large part to the quick thinking by our district leaders, teachers, and staff. As a community we have demonstrated what may be accomplished in a crisis if we stay calm and work together. Since announcing the closure of our school sites on Friday, March 13, we have initiated distance learning for our students, via a variety of technology tools; we have ensured students are being provided breakfast and lunch; and most importantly, we have set up a new virtual culture of helping and encouraging others.

The nursing staff misses our students every day. We miss talking with you, hearing how your weekend was and what fun activities you have been doing. We understand that sometimes things get stressful and you just need a safe place to rest and regroup before getting back to work. We want to reassure you that we are still here thinking about you and your wellbeing each and every day.

We will be updating this page with resources and information about how you can keep yourself safe and healthy while doing your part at home. Families and students please feel free to reach out to any of the school nurses below if you have any questions or just need to talk with someone.

All the best,

Your L.U.S.D. Nursing Team
