

PCM One to One Laptop Program Tips

Each student grades 6-12 will receive a 11' MacBook Air to use for the school year. The student is responsible for the content created on the computer and for any damage that may happen. Keep in mind that the MacBook Air and equipment is property of the school and is monitored, so make responsible choices in how you use it and care for it. Enjoy this privilege by following some simple guidelines.

- Keep the computer in your bag when transporting. Do not slide, drop or intentionally throw your bag in the classroom for any reason.
- Animals, small children, and vacuum cleaners love to chew on cords. Keep them away!
- Notify staff if your computer or bag is defective and/or damaged.
- Do not eat or drink around your computer.
- NEVER leave your computer unattended in a public space.
