

COMMUNITY COUNCIL NOTES—NOV. 13, 2018

DRAFT

Call to order: Desiree Jones 7:00 PM

Members present: Principal Gailynn Warr, Chair Desiree Jones, Co-Chair Kim Kunz, Treasurer Heidi Ross, Secretary DeLene Olivares, Teachers-Julyynn Tanaka, Donna Huxford, Parents-Jessica White, Diane Schmidt, Shannon Bigelow, Counselor Julie Earnst

Guests present-Kim Herrera (shadowing Principal Warr)

Members not present: Fred Canard (teacher)

- I. **Approval of last meeting minutes:** Motion-Heidi Ross, 2nd Desiree Jones
- II. all in favor: Gailynn Warr, Kim Kunz, DeLene Olivares, Julyynn Tanaka, Donna Huxford, Jessica White, Diane Schmidt, Shannon Bigelow, Julie Earnst, Kim Herrera
- III. none opposed or to abstain.

Find out if we have to ask if anyone abstains from the motion to approve minutes from last meeting as well.

IV. Fundraisers

Choir has been invited to Carnegie Hall to perform. Denise McCubbins sent a list to principal war. They would like to sell wrapping paper and candles to family and friends during the holidays and do singing valentines. Estimate of cost unknown at this time. Travel request has been submitted.

Special ED life skills would like to host pictures with Santa Dec 13 and 14. Use of money for field trips and cooking classes to learn life skills. \$1 to \$2 for pics with Santa and caramel popcorn to sell. They do have food handler's permits and learn skills of cooking and food management.

Latinos in action group. Sell Dominoe's pizza cards. With the money earned they would like to purchase cardigans and windbreakers to represent the school and community. They go to the schools and read to the children. They walk their or find their own transportation.

Motion to approve fundraisers Donna Huxford 2nd Heidi Ross,

all in favor : Gaylene Warr, Desiree Jones, Kim Kunz, DeLene Olivares, Julyynn Tanaka, Jessica White, Diane Schmidt, Shannon Bigelow, Julie Earnst, Kim Herrera

none opposed and none abstained

V. Chair Report

Reminder to find the email to watch new video concerning funding from trust lands and digital citizenship and funds for behavioral or mental illnesses.

They will post training and videos on line www.schoollandtrust.org/training/

VI. Counseling report

We visited other schools to see how they do their individual pcr meetings. These have been done in the past with students as 9th graders and 11th graders. We will be making a change over to having these done with 10th graders right before 12th grade starts. That way they will have better info on getting prereq for clc classes and pathways to be implemented by their junior year. Had parent meeting, went well, meeting with seniors in august. Seniors plans change over the course of the summer before they start school. Suggest to meet with juniors that come in to the school that weren't here for that 10th grade year to have an individual meeting. Any new students that come in have one on one with counselor already.

They can always go to the website for info as well. Each individual apt is 20 min at least. Diane Schmidt asks "what happens to students that were supposed to meet with in 11th grade compared to 10th? Juniors will meet as a group instead of individually with a parent. Counselors are over at least 400 students per person. The federal grant for mental health and to refer out for counseling is no longer available. Grant has ran out of funding. This will be a large loss of resources for mental and emotional help for students. We can use local services like valley mental health that offers free services however they do not have the amount of people needed for help. It funded hope squad as well it will end up effecting a large number of students. We met with the Governor in Aug and discussed the issue from federal grant being lost that is hugely needed. Our current counselors are in desperate need of more training, however they are spread thin as it is without being mental health counselors also. Possibly with the Medicaid expansion will help cover those students in need but not sure how well. Mental wellness needs to be embedded in college preparedness. Is there a possibility of using school land trusts for counselors to help with mental and emotional well-being?

VII. Principal report

Gave 2 handouts

Unplug and connect a community making a difference by Christy Kane phd Jan. 16th 7:00 pm shs

School climate survey for parents

Empowering students to learn and succeed mission model

What matters to us most?

Focus tonight in high levels of learning

If our kids aren't emotionally healthy they won't be college or career ready, we need to address emotional health. Trace everything back to mission statement.

End of year look at success metrics

High level of learning

9th 10th grade act aspire

11th grade act

12th grade graduation ration (students who take a 4th year of math.)

We've been high in graduation rate but 4th year of math shows high level of learning

Relationship and culture

Staff to staff culture survey comparison is a main indicator if goal is met. Plc will tie back to culture, not hanging out and having socials or having parties. Building a culture doing the job we love to do. Building a culture and expanding.

Extracurricular excellence

State and region championships

Student participation numbers for all extracurricular activities both competitive and non

Region cup: academics, sportsmanship and standings

Safe and orderly environment

Drill data result (emphasis on lockdown drill)

SafeUT report-comparison of the number of tips for emotional health vs other.

Officers showed animation of parkland shooting for a training scenario. Very impactful, had a training where a gentleman wore a body cam after going on lockdown and learned what areas were vulnerable. The gym wasn't locked down as well as a classroom. What can teachers do to improve the lockdown drills. Training with county last week as well as Tooele emergency management. Alert sense to get notifications in and out quickly and possibly put students on it. How to notify quickly when an issue or threat arises. Identifying concerns of vulnerability. At rose springs they have new doors and cameras in place which can over a threat.

safeUT report we get daily. 3 were sent this very day. Admin has to filter, there needs to be a middle person to filter out what is truly a threat or harassment. Parents don't hear about the safeUT data. Because of it school is safer and kids have a voice. Best sources are our kids.

High levels of learning

90 day plan/ school success plan

Gvc's guaranteed and viable curriculum

What is it? state curriculum can't be achieved without it

A simple curriculum map that includes

Essential standards

Sequence they will be taught

Number of days devoted to each

Identify how much time is devoted to each area of teaching. New teachers coming in that teach same thing will now have a guide of what is taught in what amount of time.

VIII. Kim Herrera ACT report: (given act prep paper)

Strength of Stansbury is they are data driven: after ACT data is being sent out to teachers and students. To the point of letting the student know why they missed the question. Changed test from Dec. to sept. use to be on Saturdays. From doing "crosswalk" we are finding skills they learn for math for instance are there but aren't recalled by their junior year and that is what they are being tested on. Using aspire plus for intervention by 9th grade to make improvements to their ACT. Strategic ACT was pushed out to all students not just juniors.

IX. Digital citizenship: things in place for making sure students are kept safe on the internet

1. Please review the training video for next meeting
2. Currently we:
Provide netsmartz training for 9th-12th
Acceptable use policy
District internet and digital device compliance safety standards
3. Propose we offer a training for parents by Dr. Kristy Cane: social media sites release serotonin you can learn how to counteract that. We would like her to address how we can be better prepared to take a phone a way and how to handle that. How to address cell phones and the attachment the students have with those.

Motion to approve Christy Kane to speak. Fee is \$1000. Has been set aside on the professional tech service side. All approved.

X. Trust land Plans and Budget

Numbers need to be moved to proper categories first. Tabled until next meeting

Safety coordinator was not approved. We need to amend formally today. No safety coordinator. Need to amend allocations. State will not approve any safety allocations but will approve behavioral.

Clint will no longer be paid from trust land funds since it wasn't approved.

Motion to approve amend \$12000 to salaries, \$5000 general supplies, \$5000 technical supplies

Desiree Jones motion 2nd Jessica White

all in favor: Gailynn Warr, Kim Kunz, DeLene Olivares, Julynn Tanaka, Donna Huxford, Heidi Ross, Diane Schmidt, Shannon Bigelow, Julie Earnst, Kim Herrera

none opposed or abstained.

Mrs. Warr will email PowerPoint and digital citizenship

Anything to add?

Motion to adjourn Heidi Ross, 2nd Julynn Tanaka

all approved : Gailynn Warr, Desiree Jones, Kim Kunz, DeLene Olivares, Donna Huxford, Jessica White, Diane Schmidt, Shannon Bigelow, Julie Earnst, Kim Herrera

none opposed or abstained.
