JAMES A. KNOLL, SUPERINTENDENT

ADVISORY TO ALL PARENTS

As a part of the Edwardsburg Public School district's pest management program, pesticides are occasionally applied. You have a right to be notified prior to any pesticide application made to the school ground and buildings. Exterior applications of fertilizer and weed control are scheduled during non-instructional hours. Interior applications are done on the fourth Tuesday of the month in all student attended buildings. Generally speaking, pesticide application consists of glue boards with pesticide on the glue that is checked monthly and replaced as necessary. The interior pesticide application does not normally include any spraying and only occurs in classrooms on an as-need basis. It is generally confined to the kitchen area, bathrooms and other areas where food may be present. In certain emergencies, pesticides may be applied without prior notice. If you request notification, it will be provided following any such application. These applications will be done after school hours.

Please keep this notice for reference of the exterior/interior pesticide application prior notification.

For notification of pesticide treatment done outside the regularly scheduled treatment days, please complete the form below and return it to:

Christine Neff
Edwardsburg Public Schools
69410 Section Street
Edwardsburg, MI 49112

Any questions may be directed to Christine Neff at (269) 663-2900 or (269) 663-1041.
