

Driveway Safety

Here is the drop-off and pick-up system for the front circle driveway. The teachers have talked with the children about not darting out on the driveway after school, as well as not playing in the back parking lot. In an effort to keep students safe, we encourage you to talk to your students at home, and help us enforce these safety measures.

1. Parents should park in the outer lane (brown area) by the sidewalk when dropping off or picking up students. Please do not park in the inside lane around the light pole and grassy area as that area will be for vehicles that are leaving.
2. Students should enter and exit the vehicle on the right side/sidewalk side if possible. This includes walking on the sidewalk all the way around into the grass if the vehicle is parked beyond where the sidewalk ends.
3. Students will not be allowed to enter the inside lane (red area).
4. If parents need to come into the school for any reason after school, you are asked to park in the back parking lot so we can keep the traffic flowing in the front.
5. A staff member or volunteer parent will be present outside until after school until 3:20 p.m. after which time, all Kindergarten through fourth grade students will be brought back into the front entryway until they are picked up.
6. Please remember that all students need to be picked up by 3:30 p.m.
