School Accountability Report Card Reported Using Data from the 2017—18 School Year California Department of Education

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

About Our School

The mission of Cindy and Bill Simon Technology Academy High School is to create 21st century learners through individualized student-centered instruction that makes academics both personal and relevant for every student. To do this, we will use the Alliance hybrid learning model that incorporates a blended curriculum, multimedia instruction, and digital content. Moreover, our students will have solid character and strong critical thinking/collaborative skills. These skills will create socially responsible and globally minded citizens that are an integral part of the Watts community and beyond.

School Description and Mission Statement (School Year 2018—19)

Alliance Cindy and Bill Simon Technology Academy High is part of a network of independent public charter schools that provide world-class educational services to address the unique needs of each student.

Alliance schools are tuition-free public schools that serve all students including those with special needs. Alliance schools have been recognized as among the best in the nation in preparing students to enter and succeed in college and significantly outperforming neighboring public schools through an educational model based on:

- high expectations for all students
- small and personalized campuses
- longer school year and a longer instructional day
- highly qualified teachers and principals
- parents as partners in their child's educational success

Together the teachers and staff of Alliance Cindy and Bill Simon Technology Academy High are working with our community to create a safe and harmonious school that will prepare our students realize their full potential.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students Grades Three through Eight and Grade Eleven Percentage of Students Meeting or Exceeding the State Standard

Subject	School 2016—17	School 2017—18	District 2016—17	District 2017—18	State 2016—17	State 2017—18
English Language Arts / Literacy (grades 3-8 and 11)	62.0%	63.0%	40.0%	43.0%	48.0%	50.0%
Mathematics (grades 3-8 and 11)	18.0%	19.0%	30.0%	32.0%	37.0%	38.0%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2018—19)

Parental support and involvement are key components in students' academic success and we believe that it is essential for parents to be knowledgeable about preparing their student to enter and complete college. Parents are considered partners in our mission and are encouraged to take an active and meaningful role to ensure the success of the school. Research shows that parent involvement in children's learning positively impacts student achievement. We believe that parent participation is really making a difference and is positively impacting student academic progress and future college success.

We encourage all parents, legal guardians, and adult family members to become actively involved by in the school's educational program. Their time, talent and enthusiasm are an integral part of the day-to-day functioning of the school and the overall academic development of their student.

There are a number of ways parents and guardians may get involved and demonstrate their commitment at school and at home. School support activities include office support, campus and field trip supervision, including taking on leadership roles on school committees and creating parent support groups. Parents also provide regular feedback and take part in decision-making through their participation in school governance and LCAP stakeholder engagement meetings. Academic support activities include weekly and/or monthly Saturday parent workshop and parent-teacher conference participation, along with classroom and tutoring support.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates; and
- High school graduation rates

Professional Development

Teachers participate in a 5-day professional development seminar before the opening of school. Ongoing professional and personal growth opportunities are conducted on a weekly basis at the school site. Teachers analyze student achievement data and identify student growth needs and interests. Teachers benefit most from professional development that provides time for teacher-to-teacher interaction in small learning communities focused on classroom practice. Our teachers have ongoing regular time for common planning, analysis of student work, and unit study based on core content standards. Teachers use instructional guides in core content areas and use data from quarterly benchmark assessments to re-teach low performing content standards.
