

HOME BASED THERAPY PROGRAM

Mental health services for children and adolescents affected by Hurricane Harvey

If your child or adolescent is suffering from depression, anxiety, and/or other behavioral problems, Project Gold is here to help.

Project Gold's telehealth platform utilizes technology to provide evidence-based mental health services to pediatric patients in your area, from the comfort of their home.

Project Gold is available to help

- Children between the ages of 5-17
- Affected in some way by Hurricane Harvey or its aftermath
- Parent or legal guardian available to participate during the therapy sessions
