

South County SAFE

The SAFE Family Resource Centers continue to be available for our communities by working remotely. We are checking in on our families and providing resources to all of our clients.

The SAFE/CAPSLO Family Resource Centers are here to support our community during this crisis. Please feel free to connect families that you feel are in need of services with the family advocate assigned to your school site. Below you will find each family advocate's school sites and contact information. Please continue to refer to families to us, my contact information is also available if you have specific questions.

Thank you,

Daniela Garcia

Family Resource Center Supervisor
