

Technology Use Policy

Technology resources, including, but not limited to, email, Internet access, school computers, netbooks and tablets, and the use of personal electronic portable devices on school grounds or at school-sponsored events, are to be used for educational purposes only. Adherence to the Technology Use Policy (TUP) is required for all students' continued access to these technology resources.

To fulfill the state and federal Internet safety laws, and as the parent or guardian of this student, I understand that access to the Internet at school or school-sponsored events is designed for educational purposes. I further understand that Arizona Autism Charter Schools (AZACS) has taken precautions to block inappropriate and/or controversial material through content filters. However, I recognize that it is impossible for AZACS to completely restrict access to inappropriate materials.

I understand that AZACS includes a computer program at all grade levels so that every student will learn how to be safe, appropriate and responsible online. All lessons completed with digital devices will advance the learning of the state standards.

It is the responsibility of the student to protect the security of any user names and passwords the student uses. And students are responsible for their behavior and communication when using technological devices.

Violation of the rules stated above may result in disciplinary action, including the loss of the students' privileges, suspension, and/or possible supervision and monitoring of a students continued use of any devices involved in a violation of the TUP.

Administrators reserve the right to confiscate, examine, and disclose any information and/or data found on a student's device in order to further the health, safety, discipline or security of any students or other person, or to protect property. They may also use this information in disciplinary actions and will furnish evidence of crime to law enforcement.

I have read and understand the above agreement and my responsibilities under the Technology Use Policy.
