I have enjoyed every minute of my journey as Sierra View's principal. I am so thankful for the relationships that I have made during that time. I firmly believe that we are who we are because of the relationships that I have made during this time. Parents and teachers have trusted and supported me as the leader in a way that has allowed me to be successful at Sierra View. I am proud of what our community has accomplished over the past 8 years; from being the highest performing school in Madera County, to raising almost \$150,000 to build a new playground, to developing strong young leaders through a model Character Counts Program that focuses on Civil Service. Being the principal of Sierra View Elementary has been the greatest professional honor bestowed upon me, and I would like to say thank you from the bottom of my heart for the opportunity to work with your children. 	<p>2018-2019 classes will be available on August 13th. Teachers from the previous year collaborate on the class list with the goal to create the best possible learning environment for our students. Teachers take into consideration multiple facts when developing the class list that include academic strength, classroom management, gender balance, teacher/student chemistry, and overall classroom balance. Mr. Imperatrice does take input from parents regarding the academic needs of your child when building the class list. The class list will be posted on the office window at 4pm on Monday, August 13th.</p>
